CHAMPION CSS Inks

For Canon* iPF 8000/9000/8100/9100 Printers

November 14

* Canon® is a registered trademark of Canon.

Champion CSS Inks

Champion Colour Specialist Series (CSS) Canon replacement wide format inks are designed to work with the printers shown above. The specially formulated encapsulated pigmented inks provides the ultimate in photo quality printing, with smooth colour transitions and a wide colour gamut exactly matching the original ink set when using Canon media and Canon recommended drivers/profiles. For other media Champion Profiles are available.

Features

Champion Colour Specialist Series (CSS) wide format inks are the ideal drop-in replacements and match the exacting colour gamut of the original OEM ink. **CSS inks** can be introduced without any interruption of workflow or requiring profiles to be modified or re-written when using Canon media and Canon recommended drivers/profiles. **CSS inks** can be inserted as each colour of the OEM ink runs out – a truly “plug & play” solution.

Champion Colour Specialist Series (CSS) Canon replacement wide format inks:

- Perform to Density and Delta E tolerances well within the acceptable industry levels and are virtually impossible to identify from the OEM inks, and have been preferred in some instances
- Match the same exacting quality and specifications of the OEM ink
- Be fed directly on top of the original ink without adjustment
- Be introduced as required e.g. one cartridge at a time
- Are USA manufactured
- Not require new profiles or other adjustments to maintain the correct colour balance
- Prevent head clogging using **“Self Disperse Technology” (SDT)**

Warranty

*Champion CSS inks and cartridges are warranted to be free from defects in materials and workmanship until their expiry date, and Champion will immediately exchange any faulty **Champion CSS inks**. Liability is limited to replacement product only.*

Further, in the highly unlikely event that there is printer head damage proved to be caused by **Champion Colour Specialist Series** replacement inkjet cartridges, we will reimburse the customer (or the AD's customer) for reasonable cost of repairs.
